

DATA SHEET

Crushing Resistance of Lightweight Aggregate Apparatus

48-D0512

General description

Used to determine the crushing resistance of lightweight aggregates. Consisting, basically, of a steel cylinder and piston.
Two versions available:

Procedure 1: apparatus with cylinder int. dia. 113 mm

Procedure 2: apparatus with cylinder int. dia. 76 mm

- Weight approx.:
15 kg (48-D0512)
7 kg (48-D0512/A)

Standards

- BS 812:110
- EN 13055

Products

48-D0512

Apparatus for the determination of the crushing resistance of light weight aggregate

48-D0512/A

Apparatus for the determination of the crushing resistance of lightweight aggregate 76mm int. Dia (Method 2)
