Cylinder Moulds

55-C0100/MC15, 55-C0100/MCIN, 55-C0100/MC16

General description

The proposed models range from the traditional steel models conforming to EN, ASTM and AASHTO standards, to the slitting plastic models, very practical for field use and ideal for production control. Steel models can be supplied, on request, complete with certificate of compliance stating the individual verification with certified instruments.
