

DATA SHEET

Deep Scanning Metal Locator

58-E0058

General description

Finds rebar and metallic pipes, conduit, metal studs, junction boxes and metal framing up to 150 mm deep before drilling or remodeling. It scans through most non-metallic construction material, including solid concrete.

Main features

- Scans through solid concrete
- Pinpoints the location and depth of target
- Differentiates between steel rebar and copper pipe
- Eliminates guesswork, needless holes, broken drills and saw blades
- Essential tool for concrete contractors, remodelers, plumbers and electricians

Specifications

Battery: 9 V alkaline (not included)

Battery life: 1 year with normal use, with low battery indication

Position accuracy: Rebar/Copper pipe 14 mm dia. at a minimum grid spacing of 152 mm are located typically within 13 mm

Depth: up to 152 ± 25 mm

Size: 251x109x63 mm
