

DATA SHEET

Planetary Stirrer for Abrasion Test

80-B0192

General description

For determining the resistance to abrasion of slurry mixtures. The apparatus consists of a planetary mechanical stirrer equipped with a weighted rubber hose abrasion head. The machine has to be completed with the set of moulds. See accessories.

- Weight approx.: 32 kg

Standards

- EN 12274-5
- ASTM D3910

Products

80-B0192

Planetary mechanical stirrer. ASTM D3910 230V/50Hz/1Ph

81-B0192/Z

Planetary mechanical stirrer. ASTM D3910 110V/60Hz/1Ph

Accessories and consumables

80-B0192/1

Set of moulds, 279 mm int.dia, 295 mm ext.dia, 6.3 - 10.0 - 13.0 - 19.0 mm high
