

DATA SHEET

Hygrometer

82-D3260 hygrometer

General description

A simple unit designed for general purpose use. Two undivided thermometers are mounted on a printed plastic scale. Between the thermometers is a unique slide with pointer, which allows relative humidity to be easily read. The scale is housed in a plastic case, which also holds a reservoir with anti-frost device.

- Accuracy: $\pm 5\%$ to 20% R.H.
- Thermometers: scale length 140 mm x 1°C, range -5 to +50°C
- Dimensions: 340x82x45 mm
- Weight approx.: 225 g

Products

82-D3260

Laboratory igrometer range -5 to +50°C, mercury free with alternative liquid.
